224  **Al-Based Reconstruction for Fast MRI—A Systematic Review and Meta-Analysis**  
| CONTRIBUTED PAPER | This article provides a systematic review and the first meta-analysis to summarize the development of deep-learning-based compressed sensing–magnetic resonance imaging.

246  **Soft, Wearable Robotics and Haptics: Technologies, Trends, and Emerging Applications**  
By M. Zhu, S. Biswas, S. I. Dinulescu, N. Kastor, E. Wright Hawkes, and Y. Visell  
| CONTRIBUTED PAPER | This article reviews recent developments in the vibrant and diverse research area of soft wearable robotics.

273  **Detection Methods in Smart Meters for Electricity Thefts: A Survey**  
By X. Xia, Y. Xiao, W. Liang, and J. Cui  
| CONTRIBUTED PAPER | This article surveys the electricity theft issue and the existing detection methods and provides insight for shaping future research directions.

---

**On the Cover:**  
This month’s cover highlights an artist’s rendition of an MRI machine which can yield images such as those occurring in its background.
