GUEST EDITORS' INTRODUCTION

Pervasive Computing in Space

Ana Diaz-Artiles, Ariel Ekblaw, Gregory Falco, Jeremy D. Frank, and Joseph A. Paradiso

APRIL-JUNE 2023

Theme Articles

7

Linguistic and Vocal Markers of Microbehaviors Between Team Members During Analog Space Exploration Missions

Projna Paromita, Alaa Khader, Sydney Begerowski, Suzanne T. Bell, and Theodora Chaspari

19

Lasers on the Moon: Recommendations for Pioneering Lunar Communication Infrastructure

Nathaniel G. Gordon, Damiano Marsili, Ioannis Nikas, and Nicolò Boschetti

27

From UbiComp to Universe—Moving Pervasive Computing Research Into Space Applications

Ariel Ekblaw, Juliana Cherston, Fangzheng Liu, Irmandy Wicaksono, Don Derek Haddad, Valentina Sumini, and Joseph A. Paradiso

Theme Articles Continued

43 **Space: The Ultimate Computational Edge**
Zac Manchester and Avi Loeb

Columns and Departments

49 **Wearable Computing**
Whereables? Examining Personal Technology Adoption in Contemporary Control Rooms
Nadine Flegel, Jonas Poehler, Tilo Mentler, and Kristof Van Laerhoven
